

# THIRD PARTY RISK MANAGEMENT

**Early Detection. Better Performance.**

*Our comprehensive risk management inspections help protect your project, reduce costly issues, and ensure long-term building performance.*

## OUR RISK MANAGEMENT SERVICES

### Drone/Roof

High-resolution drone inspections and roof assessments for comprehensive visibility and condition reporting.

### Sound Testing

Sound transmission testing to ensure acoustic performance and occupant comfort.

### Exterior Envelope → Water Intrusion

Evaluation of building exteriors to identify vulnerabilities and ensure a weather-tight envelope.

### Framing → Firewall

Detailed framing inspections to ensure quality, code compliance, and structural performance.

### Foundation → Rebar/Concrete

Assessment of foundation systems to verify structural integrity and long-term stability.

### Customizable Protocols

Tailored inspection approaches for project-specific risks such as usable flat roofs, new materials, fenestration mock-ups, and field testing.
